

Employment

Be a part of an unforgettable experience! At camp, you will work with fantastic people, change lives, and be changed in the process. Job openings are varied, please see the Job Description Page for more specific information on available positions.

Staff **MUST** be available for our two week staff training to be considered for employment. During training we will cover all aspects of the Camp Dudley experience, from safely running specific activities to working with different age groups.

All applicants must submit an application form and references, regardless of prior employment with YMCA Camp Dudley. Applicants will then be notified by phone call or letter whether or not they have been selected to continue in the interview process. Those continuing on will be required to complete either a phone or on-site interview with camp staff. All applicants will be notified of their final status regardless of whether a job offer is made or not.
