

Programs

Camp Dudley's Summer Camp has a long tradition in Washington. Since the beginning in 1937, thousands of campers have made Dudley a "must do" in their summer plans. Our spring brochure details the dates and pricing for that summer's camp experiences. Camps include:

Residence Camp: Our traditional week long camping experience. Campers arrive Sunday night and settle in for an exciting week filled with new friends, new adventures, and a variety of exciting activities. Each week involves a special theme, so no two weeks are alike. Our qualified and capable staff are here to ensure that your child has a safe, fun, and memorable week.

Mini-Camp: An introduction to camp for our younger campers that might not have much overnight experience away from home. In two nights and three days, mini-campers will have the full camp experience doing age appropriate activities under the supervision of our amazing staff. Our goal is that these campers come away from their session excited and ready for a full week of camp either later in the summer or the following year.

Counselors in Training: Working in the camp environment is an incredibly rich and rewarding experience, and a better way to get campers ready to make the transition to employment than by learning from Dudley staff. Our CIT classes are designed to give young adults an inside view of camp life while teaching lessons on leadership, decision making, mentoring, conflict resolution and more. These lessons are part of a greater schedule that includes a two night, three day adventure trip, low and high challenge course experience, and lots of camp fun.

Backpacking: For the adventurous camper that is looking to expand upon the residence camp experience, Dudley offers backpacking. Nestled in the Wenatchee National Forest, having the Pacific Crest Trail outside our door, and being less than an hours drive from Mt. Rainier, our backyard is chock full of amazing locations to explore. These trips are designed with the beginner in mind, yet challenging enough and so full of amazing scenery that the experienced hiker will still be raving.

Specialty Camps: Rock climbing, horseback riding, and more! Offerings vary each summer and we are always planning new and exciting options. Check out our summer brochure to see what is up and coming.

Family Camp: We believe that camp is for everyone, and our Family Camp brings together young and old alike. A smorgasbord of camps best activities are offered and your family can pick and choose what interests you. Family Camp is also a great way to introduce younger campers to the camp environment, and acquaint them with our staff and activities in order to get them ready for their first solo residence camp stay.

Off Season Events: Camp isn't just for summer! Halloween Haunted Weekend is a trick

or treat extravaganza in October. A great chance to experience life on Clear Lake in the fall. Winter Camp highlights Dudley's amazing winter scenery with lots of snow.
